Dear Families,

I just wanted to take a moment before the day ends to address all of our students, staff and families.

We all can agree that 2020 was different and we had to change many of our ways of doing. Wearing masks, hand sanitizing and keeping our distance and the unusual sharing is not caring! It was not always easy but we did it! It is important to note how strong and resilient we all were. We remained healthy and have learned to adapt to our new normal!

I would also like to take this moment to say thanks to the families of Hillside Park Elementary and to highlight your contributions to keeping our school safe and our students healthy. Thanks for being there and thanks for being who you are. We appreciate your continued support and for working together with us over the last 10 "COVID" months!

I believe I speak on behalf of my school team and wish you a HAPPY HOLIDAYS! I hope that when the New Year arrives it brings you JOY and good health!

Above all, rest and stay healthy! All the best,

Kelly Joy
Principal
Hillside Park Elementary
